Aa PowerPoint presentation ma "Calcium" ane "Iron" na mahatva vishe saral samjuti aapvama aavi che. Tene niche pramane samji shakay che:

1. Minerals (Khanij) shu che?

- Minerals e micronutrients che je sharir na normal karya ane vikas mate jaruri che.
- Major Minerals: Calcium, Magnesium, Sodium, vageere ni jaruriyat vadhare hoy che.
- Trace Minerals: Iron, Zinc, Iodine, vageere ni jaruriyat khub j ochhi matrama hoy che.

2. Calcium (Cal-see-um)

- Karya: Te hadka ane dant na bandharan mate mukhya che. Te mas-peshio na sankochan (contraction) ane lohi jamva (clotting) ni prakriya ma madad kare che.
- +1
- Sharir ma Sangrah: Sharir nu lagbhag 99% calcium hadka ma hoy che.
- Absorption (Shoshan): Vitamin-D calcium na shoshan ma madad kare che.
- Kyakthi male? (Sources): Dudh, dahi, panir, lila shakbhaji (broccoli, kale), soyabeans ane fortified bread mathi male che. Ketlak bhago ma pani mathi pan 25% jetlu calcium mali shake che.
- +1
- Unap (Deficiency): Calcium ni kami thi hadka nabala pade che (Osteoporosis). Te na karane mas-peshio ma khench (cramps) pan aavi shake che.
- +1

3. Iron (I-run)

- Karya: Te lohi ma 'Haemoglobin' banava mate jaruri che, je akkha sharir ma oxygen pohanchade che. Te balako na vikas ane rog-pratikarak shakti mate pan jaruri che.
- +1
- Prakar:
  - Haem Iron: Mans, machhli ane poultry mathi male che, jenu shoshan jaldi thay che.
  - Non-haem Iron: Vanaspati (cereal, nuts, seeds) ane dudh/ida mathi male che.
- Kyakthi male? (Sources): Lal mans (beef, lamb), seafood, lila shakbhaji, ane nuts mathi male che.
- Unap (Deficiency): Iron ni kami thi 'Anaemia' (lohi ni kami) thay che, jena lidhe thakan, shwas charvo ane nabalai lage che.
- Vadhare intake: Jo khub vadhare iron levama aave, to constipation (kabajiyat) ane pet ma dukhava jevi taklifo thai shake che.

Jaruri Suchan:

- Calcium: Ek vayasth vyakti ne divas ma lagbhag 700mg calcium ni jarur hoy che.
- Iron: Purusho mate 8.7mg ane mahilao (19-49 varsh) mate 14.8mg divas ni jaruriyat hoy che.
